Dear Sirs,

Sub: Launch of Pneumococcal Polysaccharide Conjugate Vaccine (Adsorbed) I.P., 20 – Valent (PCV20)

Ref.: Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Pursuant to the Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby inform that, the Company has announced the launch of its next-generation 20-valent Pneumococcal Polysaccharide Conjugate Vaccine (Adsorbed) I.P., 20 – Valent (PCV20) for adults in India, on August 11, 2025.

The additional details required to be disclosed, pursuant to the Listing Regulations read with the SEBI Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024, are enclosed herewith as Annexure A.

The press release for the said launch of PCV20 is enclosed herewith as Annexure B.

Request you to take the above on record.

Thanking you,

Yours truly,
For **Pfizer Limited**

Prajeet Nair
Director – Corporate Services & Company Secretary

Encl.: A/a

Annexure – A

Additional details pursuant to the Listing Regulations read with the SEBI Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024.

Sr. no	Particulars	Details
1.	Name of the product	Pneumococcal Polysaccharide Conjugate Vaccine (Adsorbed) I.P., 20 – Valent (PCV20).
2.	Date of Launch	Available to end users on August 11, 2025.
3.	Category of the product	Pneumococcal Polysaccharide Conjugate Vaccine.
4.	Whether caters to Domestic Market / International Market	Domestic Market
5.	Name of the countries in which the product is launched <i>(in case of international)</i>	Not Applicable

Pfizer Launches 20-valent Pneumococcal Conjugate Vaccine (PCV20) for Adults in India, Offering Broad Protection Against Pneumococcal Disease

- With a single dose, Pfizer's 20-valent pneumococcal conjugate vaccine (PCV) helps protect against invasive and non-invasive pneumococcal disease caused by 20 *Streptococcus pneumoniae* (pneumococcus) serotypes¹
- Approved for use in adults 18 years of age and older, Pfizer's vaccine protects against more serotypes of pneumococcal disease than any other conjugate vaccine previously available in India¹

Mumbai, August 11, 2025: Pfizer today announces the launch of its next-generation 20-valent pneumococcal conjugate vaccine (PCV20) for adults in India. With broader serotype coverage, Pfizer's vaccine marks a significant advancement in protection against pneumococcal disease in adults.¹

Pfizer's vaccine helps protect against clinically relevant 20 serotypes responsible for a majority of invasive and non-invasive pneumococcal disease. It enables timely and proactive protection for all adults, including those living with chronic conditions. PCV20 will be available as a single shot vaccine and those vaccinated with PCV20 may not need a second dose.^{1,2}

Meenakshi Nevatia, Managing Director, Pfizer Ltd., India, said, *"We are excited to launch PCV20, our 20-valent pneumococcal conjugate vaccine, in India. We believe this vaccine, with its broad coverage of 20 pneumococcal disease serotypes, will address the increasing need for adult immunization in our country."*

Adults over 50 years of age, as well as individuals with comorbidities such as asthma, COPD (Chronic Obstructive Pulmonary Disease), chronic kidney disease, and diabetes, face a higher risk of developing pneumococcal infections, which can result in complications, hospitalization, and even death.³⁻⁷

Timely immunization is critical to reducing the risk of severe illness, hospitalization, and mortality caused by pneumococcal disease. Vaccination with PCVs are considered one of the most effective public health tools for reducing the burden of pneumococcal disease.⁸

The introduction of PCV20 in India strengthens Pfizer's longstanding commitment to preventive health and builds on 25 years of leadership in pneumococcal vaccine innovation.

About Pfizer: Breakthroughs That Change Patients' Lives

At Pfizer, we apply cutting-edge science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety and value in the discovery, development, and manufacture of health care products, including innovative medicines and vaccines. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments, and cures that challenge the most feared diseases of our time. Consistent with

our responsibility as one of the world's premier innovative biopharmaceutical companies, we collaborate with health care providers, governments, and local communities to support and expand access to reliable, affordable health care around the world. For more than 170 years, we have worked to make a difference for all who rely on us. We routinely post information that may be important to investors on our website at www.pfizerltd.co.in
